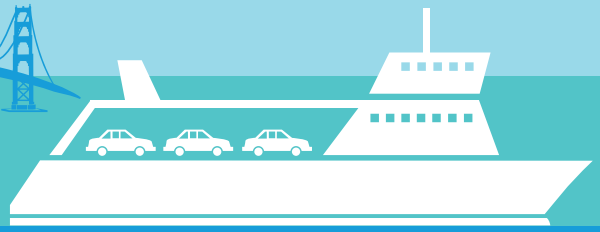
PACIFIC POWER GROUP MARINE

Engineering a ***Cleaner Propulsion System***

FOR SAN FRANCISCO BAY FERRIES

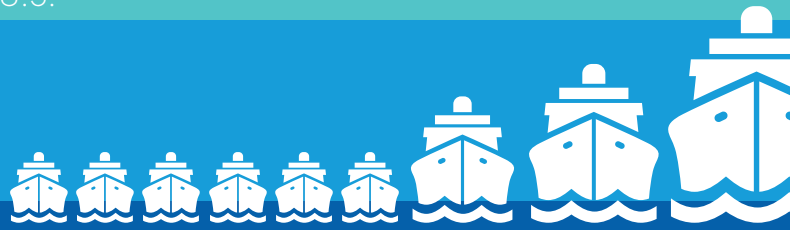
PPG engineered an MTU-powered propulsion system and an exhaust treatment system for two new San Francisco Bay WETA ferries that are currently being built by Kvichak. See what they deliver for WETA:

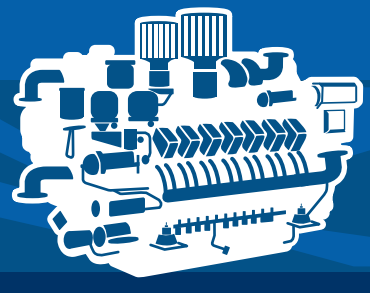


10 TONS
REDUCED PER YEAR
of nitrous oxide, particulate matter and carbon monoxide

CLEANEST
OPERATING FERRY PROPULSION SYSTEM
IN THE U.S.

JOINING 9 VESSELS
IN WETA FLEET
Powered by PPG & MTU



TIER 4 FINAL PERFORMANCE
WITHOUT
DIESEL PARTICULATE FILTERS


POWERED BY
1950 HP MTU SERIES 4000 Engines
